IBM Z DATATHON 2026 · REAL-TIME AI ON TRANSACTIONAL DATA

ClaimGuard

Honest claims paid in hours.
Fraud stopped before payout.

Insurers check most claims by hand, so honest customers wait weeks while organised fraud slips through. **ClaimGuard scores every claim the instant it is filed**, inside the transaction on IBM Z, using 26 live signals and an identity graph that exposes fraud rings. Every decision comes with exact reasons.

✅ **Pay instantly**
zero manual work

📎 **One more document**
quick upload in the app

🕵️ **Hold & investigate**
a human always makes the final call

99%	37%	81%
fraud value stopped before payout	claims paid instantly	fraud caught (rules: 62%)

🧠 **Telum on-chip AI**

⚙️ **ML for z/OS + Snap ML**

🔐 **Pervasive encryption**

🚀 **Running live on LinuxONE**
